

SPECIFIC CLAIMS FOR PATENT APPLICATION  
FOR NOVEL MULTI-COMPONENT GARLIC FOOD SUPPLEMENT

Claim No. 1: This multi-component garlic product consists of a unique synergistic combination of garlic powder and neutralized vinegar plus honey and olive oil found to be effective as a food supplement.

Claim No. 2: This product, unlike all other garlic products, contains a neutralized apple cider vinegar plus olive oil and honey. The basic or neutral vinegar as well as the olive oil and honey, enhance the beneficial properties of garlic as well as give the garlic a more palatable flavor and odor.

Claim No. 3: This product, compared to all other garlic products, gives a much more significant weight loss benefit and lowers the acidity of the body, which promotes better health.
